4. Consequences for misconduct, including but not limited to vape, tobacco, alcohol, drugs, poor behavior in school, etc. will be handled on a case-by-case basis by our administrative team.
5. Any participant missing a game or practice without an excuse acceptable to the coach or advisor will be disciplined according to the respective policy set forth by the head coach or advisor.
6. You are expected to return all issued equipment and to pay in full for any unreturned or damaged equipment.
7. Splitting of after school activities is sometimes necessary. Students who must do this should see their respective coaches and advisors to set up a practice schedule that meets the needs of all concerned. Any disputes arising from this will be settled by the high school principal after meeting with those involved.
8. Any student who is suspended in or out of school will not be eligible to practice or participate in their activity that day or evening.

SYNOPSIS OF P.I.A.A. RULES

- 🏆 No student shall be eligible to represent his/her high school in any extracurricular activity unless he/she has been carefully examined by a physician and his/her condition pronounced satisfactory. A certificate to this effect, a medical emergency form, and a signed pledge with his/her parents or guardians consent shall be filed with the high school principal.
- 🏆 Post graduates shall not be eligible. No student who has been in attendance at the school more than four years beyond the 8th grade shall be allowed to represent his/her school in extracurricular activities. No student who has been in attendance at the school more than six years beyond the 6th grade shall be allowed to represent his/her school in extracurricular activities. A student who reaches the **age of nineteen (19) on or after July 1** of the current school year **shall be eligible** to participate in athletics for the entire school year.
- 🏆 A member of an interscholastic team must never have played on a professional team. An athlete becomes a professional if he/she engages in any athletic activity for money or its equivalent.
- 🏆 A student who has been absent from school during a semester for a total of 20 or more school days shall not be eligible to participate in any contest until he/she has been in attendance for a total of 45 school days following his/her twentieth day of absence, except that where there is a consecutive absence of five or more school days due to confining illness, injury, death in the immediate family as defined in Section 1154 of the Public School Code of 1949, as amended, court subpoena, or quarantine. Such absence may be waived from the application of this rule by the District Committee. Attendance at summer school does not count toward the 45 days required.
- 🏆 To be eligible for extracurricular activities, a student must pursue a curriculum approved by the principal and must maintain for the current semester or term a passing grade in at least four (4) full credit subjects or the equivalent approved by the Pennsylvania Department of Education. If a student fails to secure passing grades in four (4) major subjects or their equivalent, he/she will be declared ineligible until the next grade sheet is returned. Eligibility shall be cumulative from the beginning of a grading period, and will be reported on a weekly basis. At the end of a marking period, if a student is not passing four credits, he/she will be ineligible for the next fifteen (15) school days. The suspension will become effective the day report cards are issued. Teachers will report any student who is failing his/her subjects to the athletic director, coach, advisor, or principal.
- 🏆 At the end of the school year, the final grades of the student and credits in his/her subjects rather than his/her grades and credits for the last year's grading period are used for activity eligibility for the following school year.
- 🏆 Students who attend summer school and correct grade deficiencies shall be eligible to participate in the next school year.
- 🏆 Students who are enrolled for the first time must comply with the requirements of the curriculum rules. The standing required for the preceding grading period or preceding year shall be obtained from the records of the last school which the student attended.
