

Section: Narratives - Program Description

INTRODUCTION

Under the Elementary and Secondary School Emergency Relief II Fund (ESSER II), authorized by the Coronavirus Response and Relief Supplemental Appropriations (CRRSA) Act, the Pennsylvania Department of Education (PDE) awards grants to School Districts and Charter Schools to address the impact that Novel Coronavirus Disease 2019 (COVID-19) has had, and continues to have, on elementary and secondary schools across the state.

Please note: ESSER II funds **cannot** be used for: 1) subsidizing or offsetting executive salaries and benefits of individuals who are not employees of the LEAs, or 2) expenditures related to state or local teacher or faculty unions or associations. ESSER II funds generally will not be used for bonuses, merit pay, or similar expenditures, unless related to disruptions or closures resulting from COVID-19.

***ESSER II funds are not Title I funds and as such, are not subject to Title I rules.**

Please explain how the LEA will determine its most important educational needs as a result of COVID-19. (3000 characters max)

The LEA will be compiling data during the 2020/2021 school year for students in all grades and all areas including academic, mental health, and social/emotional needs.

Please explain the LEA(s) proposed timeline for providing services and assistance to students and staff. (3000 characters max)

Wyalusing Area School District is developing and outlining a 3 year comprehensive plan to identify where supports and services will be needed the most. Resources will then be allocated to the students based on the need and severity of learning loss.

Please explain the extent to which the LEA intends to use ESSER II funds to promote remote learning. (3000 characters max)

The ESSER II funds will support Wyalusing staff providing instruction, social/emotional supports, and all other aspects or supportive roles for the success of the students in the school and remote. We have and still are pivoting between face-to-face and remote. Wyalusing has and will continue to provide remote resources and supports to staff who have been providing these services to students. Items such as chrome books, tablets, and hotspots have been provided to families. The academic data will help determine levels of unfinished learning and the pandemic gap.

Please describe how the LEA intends to assess and address student learning gaps resulting from the disruption in educational services. (3000 characters max)

Wyalusing will benchmark students multiple times per year including; (Acadience, i-Ready, Aimsweb, and curriculum based assessments). This data will be collected and assessed to determine gaps in student achievement. It will also be compared to prior years to help

determine any unfinished learning..

Please describe the LEA(s) proposed procedures for evaluating local COVID-19 impacts in relation to education programming and delivery. (3000 characters max)

Areas of emphasis should include:

- Documenting learning loss associated with extended school closure;
- Outlining the development of local continuity of education plans over the course of emergency response efforts; and
- Detailing supports for vulnerable student populations and families.

Wyalusing Area School District had "in-person" instruction most of the 20/21 school year. We were required by the state matrix to pivot to remote learning approximately 6 weeks during the school year. Special Education students were progressed monitored closely every 2 weeks. Administrators and teachers have been creating a map to determine the "covid gap" and provide a plan to bridge the loss. We are adjusting our "Focus Forward" plan and understand this may need to be adjusted as more data is collected. We are providing extra supports in the form of serving meals to all students, weekly meals to families outside of the school day, hotspots, chrome books, and outreach workers.

Please describe the LEA core set of strategies that will be used to guide local investment of ESSER II funding, associated with short-range (i.e., remainder of the 2020-21 school year) and long-range (2021-22 and 2022-2023 school years) timelines. (3000 characters max)

These strategies may entail the establishment, scale-up, refinement, or evaluation of remote learning, as well as strategies for school-based teaching and learning responsive to conditions related to the pandemic. LEAs will be asked to outline how limited, ESSER II funding may support these initiatives and how these funds might interact with other federal funding, including enhanced Title IV flexibility, to ensure strategic and sustainable use of funds.

The Esser II funding will be used for benefits to maintain all employees such as paraprofessionals, regular education classroom teachers, occupational therapist, speech pathologist, nurses, mental health professionals, counselors, etc. As students complete diagnostics, data is gathered and analyzed. Supports are built and put into place to assist students and recover learning loss. Funds will be used to provide support for students who have missed extended time for COVID-19 related reasons.

Please describe specific plans, measures, and longer-term evaluative strategies concerning student learning gaps - as well as opportunity to learn factors - stemming from COVID-19. (3000 characters max)

The district has developed a "Focus Forward" plan aimed and developed by administrators and teachers in an evolving and changing document. The district will use diagnostics to evaluate and collect data 3 times per year. Other data will be gathered more often. Schedules will be changed to provide optimum instructional time including an additional 30 minutes for math instruction, focused specific tutorial time, focused observation instruction by teachers as well as
